## Project Title: Hogwarts School of Witchcraft and Wizardry

### Notes:

- Sans-Serif typeface for everything (unless you find a serif display type you like for titles)
- Remove white border and underline and use Scale shifts for section titles (instead of a white border for the text, maybe a white background or lighter purple background color behind the text box could work. I'd have to see it and it could be awful so if it looks bad, don't do it lol)
- LOVE the color blocking for the sections!!
- Color palette is awesome
- Add crest in the top left corner for the mobile site
- Align crest with the rest of the page options in the footer
- Maybe add more info to the footer so it looks/feels a little different than the top nav bar (like a copyright or something)
-
